P R E F A C E.

THE Publishers of the "GLASGOW POST-OFFICE DIRECTORY" beg to return their grateful acknowledgments for the encouragement with which their labours have hitherto been received by the Public, and at same time to express a hope that the efforts they have THIS YEAR made to render their publication extensively useful will meet with public approval. Neither *labour* nor *expense* has been spared to promote its utility. In proof of this they beg to refer to the additional matter inserted in the Appendix—all the Local Institutions of any note will be found there; the Names in the Directory have been greatly augmented; an epitome of the new Stamp Duties will be found in the usual place; in short, an anxious desire has animated the Publishers to bring out the volume, in every department, in a style calculated to meet public approbation. The result of the various additions made has been to increase the Letterpress, as compared with the Directory of last year, seventy-two pages; the additional expense involved has been very considerable, to liquidate which they rely on an increased circulation, and thus enable them to meet the growing necessities of the Public. As the space allotted this year would not allow the insertion of all the City Institutions, the Publishers trust the Public will be satisfied with what has been done in this department, and accept it as an earnest of what they intend doing on a future occasion.

The publishers take this opportunity to offer their respectful thanks to those gentlemen connected with the Local Institutions for the promptness with which they seconded their efforts, and for the trouble they took in correcting the lists preparatory to publication.

SAILINGS OF CLYDE STEAMBOATS.

 In consequence of the repeated changes that take place in the sailings of these Boats, it would serve no good purpose to specify the Hours of Sailing in all cases; this is the less to be regretted as the public have it in their power, at a very moderate charge, to procure all necessary information on this head from that excellent publication, "Murray's Time Tables," published monthly, by Thomas Murray & Son, Printers and Publishers, 16 St. Enoch Square, and 8 Argyll Street, and to which the public is respectfully referred.

NOTICE.

Since the Appendix containing the Post-Office Regulations went to press, the following alterations in the Despatch of the Mails, &c., have taken place:—

Box closes for Irish Mail, at..... 6.15 p.m., instead of 5 p.m.

Do. Greenock, Paisley, & Port-Glasgow, 6.15 p.m., „ 5 p.m.

There is now only One Despatch for Dunoon and Rothesay, viz., at 2.15 a.m.

An additional Despatch to Cambuslang and Rutherglen. Box closes at 1.15 p.m.

As alterations are continually being made in the Despatch and Arrival of the Mails, there is Published Monthly,

“THE GLASGOW POST-OFFICE TABLES.”

As these Tables are now well known, being used in the principal Counting-Houses and Public Offices of Glasgow, little need be said regarding their utility. The Table of

BRITISH MAILS,

being at once simply arranged and comprehensive, a single glance will suffice to show the time of Box-closing at Glassford Street, and also at the different Receiving Houses, for every Post-Town and Village in Scotland, and the principal Towns in England and Ireland; and the latest minute up to which the “Too Late” letter-box is kept open for letters having *one* or *three* extra stamps affixed. In the Table of

FOREIGN MAILS

will be found a Monthly Calendar, showing daily what Mails are Despatched and Due. This Table shows fully and explicitly everything connected with Foreign Despatches and Arrivals; such as—

The different routes by which letters and papers may be sent.

How they should be addressed to go by any particular route.

By what route they are sent when not specially addressed.

The different weights and charges by each particular route.

To what places by certain routes prepayment is optional.

To what places by certain routes they must be prepaid.

To what places by certain routes they should not be prepaid.

&c. &c. &c.

Although these Tables have a large circulation, there must be a number of offices where their want is greatly felt, as there is still daily posted for towns in Scotland a considerable number of *business letters*, with extra stamps, intended as late letters, which would be in good time for the first despatch if posted several hours later, and may have been the cause of great hurry and annoyance, which would have been avoided had these Tables been consulted.

Published on the 1st of each Month,

By A. C. HENDERSON, Post-Office, and supplied only to Annual Subscribers,
Price 6s. per Annum.

Subscribers' names received by the Letter-Carriers, and at the Bar of the Post-Office.

POST OFFICE, GLASGOW,

This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue.

ALMANAC AND TIDE TABLE.

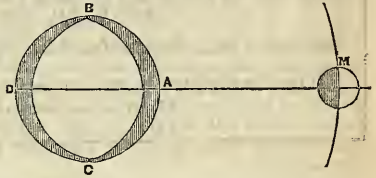

FROM JULY, 1851, TILL JULY, 1852.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure.

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide A is produced by the waters receding from the earth, and the tide D by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun or moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At New Moon, when she is in conjunction with the sun, and at Full Moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring

Tides take place about two days after Full Moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1851 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not by all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition, as here annexed.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

4. On 18th April, 1850, the sun's longitude was $28^{\circ} 19'$, and the obliquity of the ecliptic $23^{\circ} 28'$. Required the sun's declination at noon.

To log. sine of sun's longitude at noon,.....	$28^{\circ} 19'$,	9.676094

North from 21st March till 22nd Sept., and south the rest of the year.

5. Required the time of the sun's rising and setting at Glasgow, in latitude $55^{\circ} 52' N.$, longitude $4^{\circ} 16' W.$, on 16th May, 1852.

By a table of Semidurnalares the approximate time of the sun's rising and setting is 3 h. 56 m. Setting 8 h. 4 m.

Reduced time,..... 4 12 8 20

The sun's declination reduced to these times is $19^{\circ} 0'$ and $19^{\circ} 10'$, and the polar distances are $71^{\circ} 0'$ and $70^{\circ} 50'$. The horizontal refraction, less sun's parallax, is $34' 17'' - 9'' = 34' 8'' + 90'' = 90^{\circ} 34' 8''$, or $90^{\circ} 34'$, and hence the following computation:—

NOTE.—The latitude of Glasgow is $55^{\circ} 52'$ north, the longitude $4^{\circ} 15'$ west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks at Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich time.

POSTAGE STAMPS, &c.

Stamps may be procured at the General Office, Glassford Street, the Stamp Office and the several Receiving-Houses.

The Penny Labels,.....	at 1d. each.
The Twopenny Labels,.....	at 2d. "
The Tenpenny Labels,.....	at 10d. "
The Shilling Labels,.....	at 1s. "
The Penny Envelopes,.....	24 for 2s. 3d., or 2 for 2½d.
The Twopenny Envelopes,.....	12 for 2s. 2d., or 3 for 6½d.
Stamped Half-sheets of Paper,.....	1½d. each, or 24 for 2s. 3d.

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with *Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to *places abroad*, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will re-*

quire rather more time and moisture to make it stick firmly, than when it is glossy. The purpose of wetting the label wholly is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two rates being added for every ounce.* Inland Letters or Packets put *unpaid* into the letter boxes, are charged double the prepaid rates of postage. Letters *insufficiently paid*, either in money or by stamps, are charged with *double the amount of the difference between the money paid or the stamps affixed and the prepaid rates.*

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post may not exceed *Four Ounces.* All above that weight must be prepaid, either in money or by stamps. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double the prepaid rates of postage*; if *insufficiently paid*, either in money or by affixed stamps, it will be charged with *double the amount of the difference between the money paid or the stamps affixed, and the prepaid rates, and thus charged,* “shall and may be *detained and opened*, and, at the *option of the Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination.”—*Treasury Warrant*, 22d October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid or unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions, may, if *fully paid*, be *detained and opened*, or forwarded at the *option of the Postmaster-General.* Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and *thus charged*, be either *detained and opened*, and returned to the *sender*, or forwarded at the *option of the Postmaster-General.* The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public officers in Her Majesty’s service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,.....	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,.....	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,.....	3d.
And so on in proportion. Prepayment optional.	

SERVICE OF PARLIAMENTARY NOTICES.—These notices may be sent through the Post, provided they are posted on or before the 12th December, at the chief offices of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, “Parliamentary Notice,” must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. (which

must be paid in money) at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the Notices, which must be arranged in the same order as entered on the lists.

Letters of Soldiers and Sailors (except on letters addressed to the United States, which are charged $3\frac{1}{2}$ d.) remain unaltered, their privilege being restricted to half an ounce in weight.

Printed Books, Magazines, Reviews, and Pamphlets, (whether British, Colonial, or Foreign,) may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d.; exceeding 1 lb. and not exceeding 2 lbs., 1s.; exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the ends or sides. 2d. It must contain a single volume, (whether Printed Book, Magazine, Review, or Pamphlet,) the several sheets or parts thereof, when there are more than one, being sewed, or bound together. 3d. It must not exceed two feet in length. 4. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper Stamps. The name and address of the *sender* may be written or printed upon it, and any other writing may be on any leaf of it, or on the binding; but all such last-mentioned writing must be on one and the self-same page or corresponding portion of the binding. If any of the above conditions be violated, the Packet will be charged as a Letter. They may also be forwarded by Packet, under the same conditions, (except that there must be no writing either inside or on the cover,) to Bermuda, Newfoundland, British West Indies, Malta, Gibraltar, and Hong Kong, *via* Southampton, at 6d. under $\frac{1}{2}$ lb.; 1s. under 1 lb.; 2s. under 2 lbs.; 3s. under 3 lbs., &c.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or *which you have every reason to believe*, contains any of the following articles, viz.:—Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder, or other Vessel containing Liquid; or any article, matter, or thing *whatsoever*, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; *you will refuse to receive such Letter or Packet.*

“In the event of any Letter or Packet being taken in by you, and you do not, until *afterwards*, discover that it contains any Article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on its destination, but you will detain it in your Office*, and inform me by the *first Post*, of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the *Postmaster at whose Office it may be posted*, but be forwarded on to its destination, the *Receiving Postmaster*, to whose town it may be addressed, upon discovering, or *having every reason to believe*, that its contents are such as those alluded to, *will not send it out for delivery, but will detain it in his office*, reporting the circumstance by the *first Post*, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers, or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. News-venders *only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the

packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper, or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

MARKS OR WRITING ON NEWSPAPERS.

Writing or Marks are allowed on a *Newspaper* passing by Post between *any one part of the United Kingdom, and any other part*, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address, on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers posted in Town, addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging Inland letters, with the exception of such as are printed in the *French Language*.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 28.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or “Foreign Parts,” to which they are despatched free, are delivered free of postage. From places abroad, to which they are *not* despatched free, they are charged, on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence*, or *Fivepence* each. *All newspapers must be printed in the language of the country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the *Colonies and Foreign parts* at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written, or printed, immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven* days after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges, *the sanction of the Postmaster-General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

PRICES CURRENT, AND COMMERCIAL LISTS, *from the British Colonies, passing through the United Kingdom*, are liable to a Postage of Twopence each, to be paid at the time of being Posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d. each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin, or not, can be registered, on payment of a fee of 6d., *in addition to the Rates of Postage*, Inland, Colonial, or Foreign. On those for delivery in France, the charges, besides the Registration fee, will be the English rate to France, in addition to double the French rate. A printed acknowledgment will be given to any person registering a letter. Registered Letters will be taken *at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail* by which they are to be despatched. Letters for Registration, addressed to places *within the United Kingdom*, must be paid by affixing a sufficient number of Stamps, and the Registration fee must be paid in Stamps; when addressed to *parts abroad* they may be paid either in money or by means of Postage Stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France.*

The arrangements for carrying out the system of registration have been made with the view of ensuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration*; and persons having occasion to send by Post *small sums*, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open *every week-day*, fast-days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two and five pounds*. No order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued, (for instance, if issued in January, it must be presented before the end of March,) otherwise a new order will be necessary, for which a second commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The towns upon which Money orders can be drawn are marked in the lists.

COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, page 28.

To those countries marked “o” the payment is obligatory by the respective routes.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets fall upon that day, reference must be made to the Alphabetical List for information whether the Letters should be Posted on the previous Friday, or on the ensuing Sunday.

Letters for Foreign Countries, the prepayment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

The Defendants are cited before this Court on an induciæ of six days; warrants to arrest on the dependence are issued; the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding and sale of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the County to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

* Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and, before the Sheriff Courts, to the extent of £8 6s. 8d.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave of the Court on cause shown.

If the defender fail to appear, after being cited, he will be held as confessed, and judgment will be given against him.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by poinding and sale, at the end of ten days, before the Sheriff; and poinding and sale, instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the

Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person should be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a Public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the Directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esqrs.—The number of volumes in the Library is now about 10,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

LIFE DEPARTMENT.

THE SYSTEM OF LIFE ASSURANCE adopted by this COMPANY has been chosen with a view to combine the greatest stability with the utmost possible liberality to the persons assured.

The Rates of Premium are on a lower scale than those of most other Offices, and are equitably graduated according to age.

Parties may effect Policies either with or without a Right to Share in the Company's Profits. Those who are assured on the PROFIT SYSTEM have right to FOUR-FIFTHS OR EIGHT PER CENT. of the Profits of that Scheme, without deduction for expenses, or for a reserved Fund.

Profits are now divided annually, *and can either be added to the Sums insured, or applied in reduction of Premiums, or commuted into a corresponding payment in Cash.*

The **MODERATE RATES** under either Scheme, when contrasted with those of other Offices, are **EQUIVALENT TO A LARGE IMMEDIATE AND VESTED BONUS.**

NO ENTRANCE-MONEY CHARGED.

FIRE DEPARTMENT.

FIRE INSURANCES at the usual moderate rates. *Prompt settlement of Losses.* Policies may be transferred from other Offices without expense.

FIRE BRANCH.

CAPITAL—£300,000, IN 15,000 SHARES OF £20 EACH.

THIS Society has not joined the late combination to raise the rates; and as it is a principle in its management to exclude all extreme hazard, the Society is enabled to offer the advantage of lower premiums than are now generally charged upon various important risks.

One of its distinguishing regulations is to relax the stringent terms which have recently been imposed upon Warehousemen and others holding large Premises.

The Society is purely Proprietary.

Assurances paid in advance for five years, will be charged Four-and-a-half Years' Premium and Duty.

Assurances paid in advance for Seven Years, will be charged Six Years' Premium and Duty.

Losses settled liberally, and paid immediately on the amount being duly ascertained.

LIFE BRANCH.

CAPITAL—£500,000, IN 10,000 SHARES OF £50 EACH.

The Tables of this Society have been calculated with the utmost care and consideration, and will be found to present superior though just advantages to Assurances upon Young Lives. They are based upon the combined experience and practical knowledge of the principal and most successful Offices, and the Directors have adopted them after cautious deliberation.

Prospectuses, forms of Proposal, and any information respecting the terms on which Assurances may be effected, will be furnished on application to

THE CITY OF GLASGOW LIFE ASSURANCE AND REVERSIONARY COMPANY.

ESTABLISHED IN 1838. CONSTITUTED BY ACT OF PARLIAMENT 1842.

CAPITAL, £600,000.

GOVERNOR—THE RIGHT HON. THE EARL OF GLASGOW.

DEPUTY-GOVERNOR—JAMES OSWALD, Esq.

THE TWELFTH ANNUAL GENERAL MEETING OF THE CITY OF GLASGOW LIFE ASSURANCE AND REVERSIONARY COMPANY was held in the *Queen's Hotel, George Square, Glasgow*, on Tuesday the 25th March, 1851, in terms of the Act of Parliament constituting the Company.

JOHN TENNANT, Esq., St. Rollox, *Chairman of the Board of Directors, in the Chair.*

The Manager read a Report by the Directors, containing the Results of the Business transacted by the Company, for the year ending 20th January last, from which it appeared that the New Assurances of the past year exceeded those of the previous year by upwards of TWENTY PER CENT.; *that the ANNUAL REVENUE from Premiums alone now very nearly amounts to*

£35,000 PER ANNUM,

and that the SUMS ASSURED considerably exceed

ONE MILLION STERLING.

A Bonus for the year ending 20th January last, of *One-and-a-Half per Cent.* on the Sums Assured, was declared on all Participating Policies, with the option to Policy-Holders, if they prefer it, of receiving the present value thereof IN CASH, *thereby effecting annually and constantly a very large reduction of the Premium originally payable.*

The Report was unanimously adopted; and Three Directors having been elected in room of those who retire by rotation, the Direction of the Company for the current year is vested as follows, viz.—

BOARD OF DIRECTORS.

Henry Dunlop, Esq., of Craigton.
H. E. Crum, Esq., Merchant.

MEDICAL FEES.

The Payment by Life Offices of a Fee to the Medical Referee of a party proposing for Assurance, has again, of late, formed the subject of discussion in various quarters, and consequently the Directors of this Company consider it proper to state, that *for several years it has been their practice to pay a Fee to the Proposer's Medical Adviser, in return for his Report*—thus obviating, so far as this Company is concerned, the general complaint on the part of the Medical Profession, of their not being remunerated at all for their trouble, and at the same time doing away with what had long been a source of misunderstanding and annoyance to all parties.

Copies of the Company's Pamphlet, Forms of Proposal, &c., and every other information requisite for effecting Assurances, may be had on application at the HEAD OFFICE, or at any of the COMPANY'S AGENCIES.

The leading features of the business carried on by the Association are the following:—

- I. EVERY DESCRIPTION OF RISK CONTINGENT UPON LIFE, WHETHER CIVIL, NAVAL, OR MILITARY, AT HOME OR ABROAD.
- II. A COMPREHENSIVE SYSTEM OF LOAN IN CONNEXION WITH LIFE ASSURANCE, ON REDEEMABLE ANNUITY, OR ON PERSONAL OR OTHER SECURITY.
- III. IMMEDIATE, DEFERRED, AND CONTINGENT ANNUITIES AND ENDOWMENTS.
- IV. ONE-HALF OF THE ANNUAL PREMIUMS MAY REMAIN UNPAID FOR THREE, FIVE, OR SEVEN YEARS ON POLICIES EFFECTED FOR THE WHOLE TERM OF LIFE.
- V. NON-PARTICIPATION POLICIES ON A REDUCED SCALE OF PREMIUMS.
- VI. SINGLE PAYMENT, OR DEPOSIT, ASSURANCES ON FAVOURABLE TERMS.

PROGRESS OF THE BUSINESS.

The BOARD of DIRECTORS in SCOTLAND refer with much gratification to the increasing prosperity of the Association, and to the large amount of business transacted during the last year, as affording unquestionable evidence of public favour and confidence.

The NEW ASSURANCES effected during the year 1850, considerably exceeded the sum of *Two Hundred Thousand Pounds*, producing in NEW PREMIUMS upwards of *Nine Thousand Pounds*; the ANNUAL INCOME, during the same period, exclusive of Annuity Purchase Money, amounted to *Fifty-Two Thousand Three Hundred Pounds*, the FUNDS INVESTED to upwards of a *Quarter of a Million*, and the SUBSISTING ASSURANCES to *One Million One Hundred and Eighty Thousand Pounds*.

THE POLICIES

of the Association are effectually secured by a protecting CAPITAL of ONE MILLION STERLING, fully subscribed by a numerous and wealthy body of Proprietors, and thus present a most advantageous mode of Investment for Family Provision, with entire exemption from responsibility.

THE PREMIUMS

may be paid Yearly, Half Yearly, Quarterly, for a limited Term of Years, or in a Single Payment—at the option of the Assured.

THE PROFITS

are divided at each Investigation, according to an approved and equitable system of division, whereby substantial justice is secured to all the Assured, without any unfair preference being given to the earlier Entrants, either by an indefinite postponement of the period of Investigation,—by drawing back at each Division to the date of the Original Assurance,—or by any other modification of the *Tontine* principle, as opposed to that of pure *Life Assurance*, whereby the interests of New Entrants are exposed to an unequal and disadvantageous competition with those of the Older Members. The Bonus Additions vest immediately on declaration; and they may be appropriated in any of the following ways:—

- I. As a **PERMANENT ADDITION** to the *Sum Assured by the Policy.*
- II. In *Reduction of the ANNUAL PREMIUMS payable during the succeeding SEVEN YEARS; or until the next declaration of Bonus, when a similar reduction may be effected for the succeeding period.*
- III. In *Reduction of ALL THE FUTURE PREMIUMS payable under the Policy, —a further Reduction of which may be made at the next declaration of Bonus.*
- IV. By an **Immediate CASH-PAYMENT** of the *present value of the Bonus.*

Intending Assurers are particularly requested to observe that they have thus placed *within their own choice* every possible mode of appropriating the Bonus Additions declared upon their Policies, in the way which they may consider most suitable to their own views and circumstances.

THE FIRST INVESTIGATION

took place at Christmas, 1846, when a **REVERSIONARY BONUS OF TWO PER CENT. PER ANNUM**, vesting immediately on declaration, was added to all Policies entitled to participate in the Division.

and Division of Profits, will take place at Christmas, 1853.

HALF-CREDIT PREMIUMS.

Persons who may find it inconvenient to pay the full Annual Premium at first, may effect Assurances for the Whole Term of Life on the **HALF-CREDIT SCALE**, whereby *one-half* of the Annual Premiums may remain unpaid for Three, Five, or Seven years;—the arrears being *either* paid up at the end of the period, *or* allowed to remain as a permanent debt against the Policy, in the option of the Assured. Such Policies receive the full advantage of Bonus additions on the *Whole Sum Assured*, the value of which, when declared, may, if desired, be applied towards extinction of the arrears of Premium. They also afford this important advantage,—that Assurances may thus be effected at an earlier age, and consequently at a much lower rate of Premium, than if postponed until the party is enabled to pay the full amount of the Annual Premium.

NO ENTRY-MONEY IS CHARGED.

Detailed Prospectuses, Forms of Proposal, &c., may be obtained at the Head Office in Edinburgh, or from the Agents throughout Scotland.

(All of whom, as well as the Directors, are and must be Members of the Society.)

This Society was founded A.D. 1815, upon the *original* basis of the Equitable Society of London, and is the *oldest* Life Assurance Institution in Scotland.

THE CAPITAL ACCUMULATED AND INVESTED EXCEEDS

TWO MILLIONS TWO HUNDRED & FOUR THOUSAND POUNDS,

Which is the Sole Property of the Members of the Society.

THE ANNUAL REVENUE IS ABOVE

THREE HUNDRED THOUSAND POUNDS.

THE TOTAL AMOUNT OF EXISTING ASSURANCES IS

UPWARDS OF SIX MILLIONS NINE HUNDRED THOUSAND POUNDS.

THE AVERAGE AMOUNT OF ASSURANCES EFFECTED ANNUALLY DURING THE LAST THIRTEEN YEARS HAS BEEN

UPWARDS OF HALF A MILLION STERLING,

probably a larger average than has yet been attained by almost any other Office, and such as affords the true test by which to prove the estimation in which this Society is held by the public.

This Office is the oldest, and has all along been, and still continues, the most successful in Scotland. The business has steadily and rapidly increased ever since the Society was established; and a more satisfactory proof of its present stability and the continued confidence reposed in it by the public cannot be desired, than the simple fact, that notwithstanding all the trying changes and depressions of the times, the Amount of Assurances passed during the last twelve years has been on an average upwards of *Half a Million annually*,—nor can there be much doubt that its popularity has been in a great measure, if not entirely, owing to the equity of the principles on which it is founded, and to the manner in which its affairs have been conducted.

1. This Society does not profess to insure at the lowest possible rate compatible with safety, but it does profess to secure, and does secure to its Members, the full benefit of which such a Society is capable. The profits of the Society belong to the Insured alone, and are appropriated amongst them, and applied for their behoof on principles of strict equity.

2. In selecting the lives of the Insured, the Directors have always exercised great care and caution; the practice being that of *not* affording undue facilities to the admission of parties desirous of becoming Members, but of affording every facility towards their accommodation after they have been admitted, and of settling every claim with the least possible trouble and delay after it has become due.

3. Every care is taken in accumulating and investing the Funds; and from their large amount many opportunities of doing this profitably present themselves to this Society not open to others.

4. The business of the Society is conducted in as economical a manner as is consistent with efficiency. From the great extent of the business and the comparatively small expense attending its management, a considerable saving in this particular, as contrasted with *all* offices doing a smaller amount of business, must necessarily be secured for the benefit of the Members.

5. The following Table of Bonus Additions will exemplify the Practical operation of the Principles above referred to:—

POLICY FOR £1000.						
Year of Entry.	Policy with vested Additions as at 1st Jan., 1846.			Amount payable if Claim emerge after payment of the Premium for the Year.		
				1851.	1852.	
	£	s.	D.	£	s.	D.
1815	1809	8	7	2026	11	2
1820	1533	10	7	1717	11	1
1825	1436	1	2	1608	7	8
1830	1338	11	9	1499	4	5
1835	1231	4	0	1378	18	11
1840	1120	0	0	1254	8	0
					1276	16 0

From the operation of these principles also, it has resulted that there were appropriated and divided amongst the Members:—

At the first Period of Investigation, exactly two-thirds of the Profits realized previous thereto.

At the second Period, nearly three-fourths of the Profits realized between the first and second Periods.

At the third Period, nearly four-fifths of the Profits realized between the second and third Periods.

At the fourth Period, nearly six-sevenths of the Profits realized between the third and fourth Periods.

Besides which there has been appropriated and set apart as a Guarantee Fund, in terms of the laws of the Society, for the maintenance of its stability (the property of the Members alone), the large sum of upwards of TWO HUNDRED THOUSAND POUNDS.

Various inquiries having of late been made as to whether this Society is in the practice of allowing Commission to Solicitors and others who may be the means of procuring business, the Directors take this opportunity of expressing their disapproval of the system, and of intimating, that except to the recognised and duly appointed Local Agents of the Society, no allowance of the kind is ever made, the effect of any such misapplication of the Funds of a Mutual Assurance Society being to withdraw from its Members a portion of the profits which ought to be reserved for their benefit, and for their benefit alone.

THE operation of the Mutual System, and the equitable arrangements of the Society in the division of the Surplus, render an Assurance with this Office, on the ordinary scale, a most profitable application of such sum as a party proposes to devote to the important purpose of Family Provision. At last Investigation, two per cent. per annum was added to the Policies, and Provision was made for payment of the same addition for the future to Policies becoming Claims before next Investigation.

The Society pays special attention to the rates for Foreign risks, with a desire to adjust them on a fair and liberal footing. Tables have been formed for acclimatized parties in the West Indies and British Guiana.

FIRE INSURANCE.

The usual moderate Premiums of 1s. 6d., 2s. 6d., and 4s. 6d., are taken for Common, Hazardous, and Doubly Hazardous risks. Special Insurances at increased Rates.

LIFE INSURANCE.

The Non-Participation Department embraces every description of Insurance on approved Lives, at the lowest Rates of Premium consistent with safety.

The Participation Scheme was begun in 1840. The Premiums are much more moderate than those usually charged, so that by transacting with this Company an important saving is effected, equivalent, in many cases, to the highest amount of Bonus added by any office for the first Five years. Notwithstanding this, a large profit has already been realized. By the first Declaration of Bonus, as at 10th February, 1847, vested Retrospective additions, at the rate of $1\frac{1}{4}$ per cent. per annum, was made to all Policies then connected with the Scheme, together with Contingent Prospective additions at the same rate to such of these Policies, including vested Bonuses, as may become claims before next Investigation. This is to take place at 10th February, 1852, and, from the experience of the last two years, during which the Mortality in connection with the Participation Branch has been extremely light, the results are expected to be satisfactory in the highest degree.

THE SCOTTISH PROVIDENT INSTITUTION is the *only Office which combines the advantages of Mutual Assurance with Moderate Premiums.*

In many Offices (including even some of the older Mutual Offices) Assurers are offered the choice of a Moderate Scale of Premiums, without any claim to share in the Profits, or of a right to participate in these at an excessive rate of Premium. Assurers with the SCOTTISH PROVIDENT INSTITUTION are the sole recipients of the Profits, and at rates of Premium equally moderate with the *Non-participating* scale of the Proprietary Companies.

The principle on which the Profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone have made surplus payments; in other words, for those whose Premiums, with accumulated Interest, amount to the sums in their Policies.

These members sharing along with a comparatively small number, and not, as is usual, in common with the great body of the contributors, may reasonably anticipate very considerable Additions, notwithstanding the lowness of the Premiums.

SPECIMEN OF TABLES.

ANNUAL PREMIUM FOR ASSURANCE OF £100 AT DEATH.

By the first of these Scales, a person of the age of 30 may secure £100 at death, for a yearly payment, *during his life*, of £2. 1s. 6d. The same amount of Premium which, at that age, is charged in other Scottish Mutual Offices, for an Assurance of £1,000, will secure a policy in the SCOTTISH PROVIDENT of £1,230. By the second Scale he may secure the same sum at death, for a yearly Premium of £2. 14s. 6d., *ceasing on his attaining the age of Fifty*, being thus entirely relieved of payment before he has passed his prime, and that for nearly the same Premium as other Mutual Offices require for the whole of life.

PROGRESS OF THE BUSINESS DURING THE 5 YEARS 1845 TO 1850.

The number of PROPOSALS FOR ASSURANCE made to the Company during the last five years was 4,360, for Assurances to the amount of £2,737,925. 4s. 5d.

The following NEW AND IMPORTANT FEATURES in the practice of Life Assurance, were adopted at a General Meeting of the Company, held 10th April, 1851:—

RESOLUTIONS, 10TH APRIL, 1851.

SELECT ASSURANCES.

THE DIRECTORS of the STANDARD LIFE ASSURANCE COMPANY are satisfied that there is a time when so important a contract as a Life Assurance Policy ought to become "UNCHALLENGEABLE." They are also satisfied that the condition of the

Company's Policies restricting residence within the limits of Europe is unnecessary in the great mass of Assurance transactions, and, with the purpose of giving to the assured the benefit of these views, have passed the following

RESOLUTIONS:—

- I.—That Two CLASSES of Select Assurances shall be opened by the Company. The Policies of Parties admitted to the "FIRST CLASS of SELECT ASSURANCES," and who shall continue to pay the Premiums falling due upon these Policies regularly, shall be UNCHALLENGEABLE upon any ground whatever, and the Assured may, without forfeiting these Policies, or payment of extra Premiums, reside or travel in any part of the world.
- The Policies of Parties admitted to the "SECOND CLASS of SELECT ASSURANCES" shall be subject to the existing Conditions of the Company as to residing or travelling beyond the limits of Europe, and as to Military or Naval Service; but, with these exceptions, where the Premiums are regularly paid, shall also be absolutely UNCHALLENGEABLE.
- II.—That Parties who hold Policies with the Company of *five years'* duration, shall be admissible to these Classes, and that this privilege shall extend to existing as well as future Assurances.
- III.—That no expense shall attend admission to either Class of Select Assurances.
- IV.—That admission to these Classes, First or Second, shall depend on the circumstances of each case, to be judged of by the Directors, and that a special application be made to the Board of Directors accordingly.
- V.—That, on the application being granted, a certificate of admission shall be given under the hands of three of the Directors.

THE Business of this Office embraces *every* mode of Life Assurance, and the Rates of Premium will be found essentially moderate.

LIVES DISEASED, or having a tendency to disease, may be assured with this Office on payment of a proportionate *extra* Premium, which the Office will reduce or cancel on the restoration of the party to health.

Policies effected or assigned in security for CASH ADVANCES, are not necessarily voided, should the Life Assured incur a FOREIGN CLIMATE RISK, without the knowledge of the Policy Holder, or a special licence from the Board of Directors.

ONE-HALF ONLY OF THE ANNUAL PREMIUM may be paid during the first five years of Whole Life Policies, the other moiety of the Premium remaining a debt on the Assurance.

To Policies effected in the Mutual Assurance Branch, a Bonus of THIRTY-TWO PER CENT. on the Premiums which had then been paid was declared, on 30th September, 1849, for the seven years preceding; and similar additions will be subsequently apportioned to all Policies effected with a right to participation in profits. A Policy becoming a claim betwixt two periods of division is entitled to share in profits according to the preceding participation, and the number of years since then elapsed.

ANNUITIES, IMMEDIATE AND DEFERRED,

ARE GRANTED BY THIS COMPANY ON TERMS EXCEEDINGLY FAVOURABLE TO THE ASSURED.

This Company insures almost every description of property. All risks to which more than usual hazard attaches, are rated at the lowest Premium which the nature or position of the property to be insured will justify.

Its success has been everything that could be desired. With a large paid-up Capital, and having one of the Wealthiest Proprietaries of any Company in the Kingdom, and well known for its PROMPT and LIBERAL Settlement of Losses, the "Defender" offers superior inducements to the public.

FIRE INSURANCE effected on every description of Property, (with a few exceptions,) at the lowest possible rate of Premium.

LIFE INSURANCE also effected in all its branches.

EDINBURGH LIFE ASSURANCE COMPANY.

CAPITAL, £500,000.

OFFICE IN GLASGOW, 59 ST. VINCENT STREET.

Agents,.....KNOX & GUILD, ACCOUNTANTS.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its varieties, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company :—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the WHOLE PROFITS Septennially divisable among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantage of an Annual Division is thus given, without its attendant evils.

The MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class Lives shall not suffer by any undue Bonus being paid away to those who may die early.

RATES of PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount, when compared with most other Offices.

The utmost liberality as to extra licenses, consistent with a due regard to the nature of the risk incurred; and no extra within the limits of Europe.

THE CLYDESDALE BANKING COMPANY.

THE Company offers to the Public very important advantages, and affords, by its large paid-up Capital and accumulated Fund, with a proprietary of nearly ONE THOUSAND in number, an undoubted security for all its engagements.

The Company continues to effect FIRE and LIFE ASSURANCES, and to grant ANNUITIES and ENDOWMENTS, on the most favourable terms.

The number of Life Policies issued exceeds 3,500, covering Assurances to the extent of upwards of ONE MILLION AND A HALF Sterling.

The Constitution of this Company embraces—

I.—A MUTUAL ASSURANCE BRANCH,

The Members of which incur no liability, while they obtain the WHOLE BENEFIT of their contributions,—the sums assured being *guaranteed*, and the business conducted by the Company for a charge of 10 per Cent. upon the Premiums without any deduction whatever.

The Assured have the power, under the Act of Incorporation, to elect three of their number as Directors for the *Management* and *Investment* of their own funds.

The Bonus declared in 1846 (when the Institution completed its tenth year) was equivalent to from 35 to 54 per Cent. on the Premiums paid by middle-aged lives.

II.—A PROPRIETOR'S BRANCH,

By which Assurances may be effected for fixed sums upon terms which will bear comparison with those of any Office of STABILITY in the Kingdom.

Moderate Extra Rates for Foreign Residence.

The Assured in this Society enjoy, *during their own lives*, the Surplus of Profits arising on the business. The divisible Surplus is ascertained *every year*, and is paid over, *in money*, to the Assured at the Settlement of their next Annual Premiums. By this system, Life Assurances are obtained at the *lowest expense* consistent with Security.

In 1845, 1846, and 1847, the Surplus thus repaid to the Members amounted to 30 per cent. of their Premiums; that is, 6s. per £1. They were, therefore, required to pay only 14s. per £1 of their Premiums in each of these years. In 1848, 1849, and 1850, the Surplus repaid amounted to 35 per cent. of the Premiums; that is, 7s. per £1, and the Members had, therefore, to pay only 13s. per £1 in these years. For example:—

A Member whose Annual Premium is £10, has this year paid only £6 5s., and another Member, whose Annual Premium is £25, has paid only £16 5s.

The following are specimens of the Premiums payable in the present year by Members of five years' standing.

Age at Entry.	Policies of £100.	Policies of £500.	Policies of £1,000.	Policies of £5,000.
20	£1 4 0	£6 0 0	£12 0 0	£60 0 0

40	2 2 4	10 11 8	21 3 4	105 16 8

This mode of dividing the Surplus or Profits has been adopted by no other Assurance Office in Scotland.

During the last three years, 2,100 persons have joined the Institution, assuring their lives for sums varying from £50 to £5,000 each.

PARTIES about to insure would do well to consider the benefits which this old established Corporation gives to the Assured, both under the Mutual Plan, (but without risk,) and under the Non-Participation Plan. Under the former about 84 per cent. of the whole Profits are divided among the Insured, while the Non-Participation Rates of the Company, compared with the Rates of the Mutual ones, give, at the age of 30, an annual return of £5 14s. on an Insurance of £1,200; or, in other words, an Insurance of £1,475 may be effected with this Company for the same premium that an Assurance of £1,200 would cost with the Mutual Companies at that age, exclusive of 10s. per cent. of Entry-money, which this Company does not charge.

Parties insured with other Companies which do not declare their Bonuses for one or two years to come, may have these secured to them by an Insurance with this Company at a moderate rate.

FIRE INSURANCE.

THIS Company insures against Loss or DAMAGE by FIRE, all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in Harbour or in Dock, at the lowest rates of Premium corresponding to the risk.

FARM STOCK and CROP insured, *in cumulo*, on one farm, without the Average Clause. Loss and Damage by lightning made good.

LOSSES SETTLED WITH PROMPTITUDE AND LIBERALITY

LIFE ASSURANCE.

The system adopted by this Company gives every advantage to the Assured that Life Assurance is capable of affording. The Premiums are moderately rated at every age, and may be paid either in one sum, or by yearly or half-yearly instalments; and those who find it convenient to make the payments small for the first few years, may take credit for half the Premium for the first five years.

The whole Profits are divided amongst the Assured, each Policy drawing in proportion to the sum insured and number of Premiums paid, whereby every Insurer obtains his full and fair share, at whatever age he insures, and to whatever age he may attain. At the last investigation, 31st December, 1844, the BONUS or ADDITION made to the *Participating Policies*, was at the rate of £1. 10s. per cent. on the sum insured, reckoning previous Bonuses as sums insured, and as such entitled to participate.

Thus, for example, a Policy of £5,000, having £818. 2s. 6d. of previously vested Additions, was ranked for

£5818 2 6

And had a further Addition made to it of

610 18 0

And will, according to the principle above mentioned, be ranked at

£6429 0 6

next division of Profits as a Policy for

The Bonuses may either be added to the sum insured or applied in reduction of future Premiums, or commuted for a payment in Cash.

THE BOOKS CLOSE FOR THE FOURTH SEPTENNIAL BALANCE AND DIVISION OF PROFITS ON THE 31ST DECEMBER NEXT: AND POLICIES EFFECTED ON THE PARTICIPATING SCALE BEFORE THAT DATE WILL SHARE IN THE PROFITS TO BE THEN DECLARED.

COFFEE-ROASTING, GRINDING, AND SUGAR-POUNDING WORKS,

29 M'PHERSON STREET (Off HIGH STREET), GLASGOW.

The only Steam-power Roasting Establishment connected with the Trade in the City.

D. MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

D. M. trusts that, by personal attention, along with twenty-four years' experience, he will be enabled to give entire satisfaction to those who may favour him with their Orders.

P.S.—All orders punctually attended to, and delivered by his Van at the proper time.

29 M'Pherson Street, off High Street,
GLASGOW, May, 1851.

The COFFEE-PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact, in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for though cultivation may greatly enlarge the crop, it as certainly at the same time deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. Minto's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder, since the application of steam power to this branch) revolves in a medium of heated air, which experience has shown best prevents the dispersion of the essential oil or aroma.

"The name of the makers is in itself a high recommendation. In many respects superior to any we have before seen for Medical purposes."—*Glasgow Courier*.

"The price is about one-fifth of Halse's Machine, in quality it is equal, while in simplicity it is decidedly superior."—*Sentinel*.

"The directions for use are so few and simple as to be unmistakeable, which is a matter of great importance in an article intended for general and extensive use."—*Saturday Post*.

"A Machine of a very superior description. The fluid passes invariably in one direction, which is an important matter in Medical Galvanism."—*Free Press*.

"We have no hesitation in saying they are the neatest, most simple of construction, and complete, that have been introduced."—*Examiner*.

T. C. BARLOW,

ARTISTE IN FIRE-WORKS,

93 FINNIESTON STREET.—MANUFACTORY, 84 FINNIESTON STREET, GLASGOW

T. C. IMPROVED SELF-IGNITING NIGHT LIGHT,

For Sailing Vessels and Steamers.

Take off the Cap, and strike a moderate blow on the head of the Light with any hard substance; in an instant a brilliant light is produced, that must be seen from an approaching vessel.

* * The number of Vessels that are run down by Steamers render this Light indispensable for the safety of the Ship and lives of the Crew. Price 6s. per case. Warranted to keep in any climate.

IMPROVED SELF-PROTECTOR POCKET LIGHT.

Take off the Cap, and strike a moderate blow on the head of the Light, and a dazzling light will be produced that cannot be extinguished. This Light being held before the face of an assailant, he will instantly become blind and powerless; and it will also enable you to identify the Party, by creating a brilliant light equal to noon-day. This Light would be of essential service to Gamekeepers, or Parties who have charge of Plantations, &c. Price 1s. each.

SIGNAL OR DISTRESS ROCKET,

Not upon the old principle, but newly invented by BARLOW. The old plan is, that when the Rocket ascends to its proper altitude it vomits its Stars, which are only seen for a second, therefore a Ship's crew in the distance might imagine it some Meteoric Phenomenon (or Shooting Star). Not so upon BARLOW's plan: after the Rocket shoots its Stars, they continue to descend slowly in a kind of Golden Shower, and cannot lose their Brilliancy or Expire before they fall upon some liquid, or substance. Price 2s., 3s., and 5s. each. Captains of Ships and Ship Chandlers can have any of the old-planned Rockets they may have on hand restored upon BARLOW's Improved System, at 8d. each, first size; 1s. second; and 1s. 6d. third.

A great number of Testimonials as to abilities can be shown from Distinguished Parties, who have honoured Mr. BARLOW with their commands.

WRITING AND ARITHMETIC.

Divisions as in the *Juvenile Department*.

Mr. JOHN LAIDLAW, MASTER, (from the Normal Seminary.)

A Female Assistant attends on the Young Ladies.

By these arrangements, it will be observed, there is a *uniformity of system* secured which must greatly facilitate the progress of the Pupils. The Lessons are also in every case carefully adapted to their capacity. The Children in the *Initiatory* are never confined to their Classes for more than an hour at a time; and Oral Gallery Training Lessons are in part substituted for those from books at each stage of the course. The Pupils are thus relieved to a great extent from burthensome lessons at home, and are left more at liberty to enjoy the society of their Parents and of the Family; and the Trainers are enabled at the same time to impart a greater amount of general knowledge, and to communicate it in a more interesting and instructive manner. The great object

of the system is not only to develop and strengthen the Physical, Intellectual, and Moral Powers of the Young, but to carry out Family and Social Training, by making Schools, as far as possible, part of the Home of the Children.

Mid-day play-hour from Twelve till One o'clock, during which time the Pupils take Luncheon together, and Play.

MEDICATED VAPOUR BATHS,

109 MAIN STREET, ANDERSTON.

P. JACK, M.B., would wish to draw the attention of the inhabitants of Glasgow to the great advantages derivable from the administration of the VAPOUR BATH in numerous stages of disease, either in the acute or chronic form.

The universal approval and success which has followed their administration in hundreds of cases since the opening of this Establishment, fully justifies him in recommending them as the most powerful and safe agent in eradicating disease, never failing to afford relief in an almost incredible space of time, and, with a little perseverance, effectually removing complaints generally considered incurable.

Those who are in the habit of swallowing, by wholesale, drastic purges in the shape of Pills and other nostrums, would do well to remember that the Skin discharges more matter than the Lungs, Kidneys, and Bowels put together—that through it the old, altered, and worn-out particles of the blood are constantly exuding; and therefore that it is the grand outlet of all the redundant matter of the body. Sudden changes of weather and exposure to cold, close up these Pores of the Skin in part, and hence the long catalogue of diseases over the land.

These Baths are invaluable in all Female complaints, Asthma, Consumption, Indigestion, Scrofula, Rheumatism, Palsy, Habitual Costiveness, Liver Complaints, in all kinds of Nervous Disorders and General Debility. They are also the very best preventative against taking cold, and are now weekly enjoyed by Ladies and Gentlemen in perfect health as a decided luxury. Baths, Medicated according to the requirements of the case, from 1s. upwards, may be had any hour of the day.

TEPID AND COLD SHOWER BATHS, 6d. EACH.

MEDICAL GALVANISM.

H. GRAY & CO.,

3 SOUTH PORTLAND STREET, GLASGOW,

RESPECTFULLY call Public attention to the NEW MEDICAL GALVANIC APPARATUS they have recently invented, and for which they lay claim to the following advantages:—

I.—*Extreme Simplicity of Construction and Portability*—entirely superseding the necessity for those expensive and complicated Machines hitherto in use; possessing an extensive range both as regards *intensity* and *quantity* of Electricity, from the weakest power up to the strongest which can be used with safety; and, at the same time, so portable that it can be conveniently carried in the coat pocket.

II.—*Extreme Cheapness*, being furnished complete, with Batteries, &c., for 30s.

III.—The small sum required to maintain it in action, not averaging above 2d. per week.

Mr. H. GRAY is, and has been for many years, engaged as INSTRUMENT MAKER to Messrs. Griffin & Co., of London and Glasgow; and formerly as Lecturer on Electricity and Galvanism to the Calton Mechanics' Institution. He has successfully treated many obstinate cases of RHEUMATISM, DEAFNESS, PARALYSIS, &c., with the above Apparatus; for further information respecting which, parties applying can be referred to the patients themselves.

 *Instructions given how to apply the Apparatus; and Patients attended at their own Residence when required.*

BOTANIC EXTRACT FOR BEAUTIFYING THE COMPLEXION.

THIS is the most extraordinary preparation ever discovered for Beautifying the Complexion, removing all Pimples, and effectually curing Erysipelas. It has been applied in hundreds of cases without a single failure. Particular attention is also requested to the Herb Mixture which the Subscriber has prepared for the cure of Coughs, Colds, Spitting of Blood from the Lungs, and all Asthmatic Complaints.

This Valuable Medicine is composed entirely from Herbs, and at once removes the obstructions which are the cause of the disease, thereby giving instantaneous and permanent relief, so different from the Medicines usually given in such Complaints, which, although affording temporary ease, generally stop expectoration and thereby confirm the disease. The efficacy of this Medicine is proved by numerous Testimonials from parties of the highest respectability, who have been cured by it when other Remedies have failed.

Testimonials may be seen at any time at the Botanic Hall, 60 Commerce Street.

ROBERT HENDERSON, Medical Botanist.
